Something More Pretentious than Consulships Will be Asked for—Some Other Positions.

Special Dispetch to the Intelligence.

Washington, B. C., May 26.—Genard Goff arrived this morning. He put in a busy day among the departments. It is rumored, as a consequence, that some more West Virginia appointments are under way. West Virginia has lately lost the benefit of several consulships formerly accredited to her, and it is the second of the seco ships formerly accredited to her, and it is ships formerly accredited to her, and it is probable that an effort will be made to gain this lost ground. Something more pretentious than a consulship may even be asked for, such as a Minister Resident, or some other foreign post of equal importance. In addition to this the State is entitled to several positions under the Interior and Postoffice Departments not yet filled, for all of which a vigorous campaign will be opened.

# CARLISLE'S PLACE

On the House Committees W. L. Wilso May be Given One of the Vacancies. Special Discatch to the Intelligence.

WASHINGTON, D. C. May 26-Con siderable speculation is indulged in re-lating to the filling of Carlisle's place on mittees. Among the prominent aspir ants for either of these vacancies is .W obsprounted when he was reliated his old place on the Ways and Means Committee at the opening of the session, being relegated instead to the far less important Committee on Manufacturers. If his own personal wishes were to be consulted now, Wilson would prefer to take this opportunity of regaining his former place, but it is said that the Speaker is inclined to give him the Rules vacancy in preference to Mills, who would ordinarily succeed Carlisle as the leader of the minority on the floor. Such action would undoubtedly produce much jealousy and bad feeling in the Democratic ranks, but it would furnish a badly needed lesson to Mills, who has by his atter dieregard of ordinary courtesy and civility forfeited all respect on the part of his opponents in the House.

However, as the tariff debate has closed, it is not probable that these appointments will be made very soon.

Parkersburg, May 20.—Late Saturday night, Willie Smith, the little eight eyear old son of Mr. and Mrs. George Smith, died in a dismal, flithy room in the old Spencer House building on First street. And the worst of the sad story is street. And the worst of the sad story is that the child literally died of starvation. On Thursday the child was taken in back to his desolate home. There with eases at least can be found who will aver that the child had nothing to eat from that day until it died, and one woman, Mrs. Nolan, an immate of the building, says she heard the little fellow crying pitcously for something to eat Saturday evening. She, though very poor herself, divided what she had with the family, but it was too late and death ensaued.
